

Annual Report of Ferdi Home

Bagan 5.2.2021

High light of this year again “ School by the River “ new revised version of Detlef Neufert’s Promotion film and the Film was fantastic! And it was touched to all our students and public. We are very honored by the donors for our Ferdi Home. Especially to Ilse and Hartmut Schneider Foundation, Bangkok, Khun Eamporn and Esther Kaufman and Werner and Ferdinand Doettinger.

As we all facing the attack from COVID-19. Thanks God that it only hit us 23 Mar 2020 right after our 10 standard exam. All of our kids are fine and nobody suffered so far from the pandemic.

Before we had our “ Stay Home” in Myanmar , we sent 26 students to their home villages and after that we had more than 40 students left when the lock down started. We also sent 17 students to Myitkyina and Putao where Covid did not hit so hard. So far, 23 children plus 6 teachers are still staying at Ferdi Home. We all are safe, and nobody is infected in our schools.

But this year we have a lot of problems with our neighbors, so we still have no permit to build the new school. Also the new kitchen and boys teaching hall is not yet finished. But we could repair the BLC building. So this new academic year we can also use BLC as our class room and we got 3 extra class rooms. 2 big studies halls.

All children are in good shape even in COVID times and luckily we have space for children to play and study in the time of “stay home” period.

We are very concerned about the recent Coup of the military in Myanmar and very much hope that the situation in Myanmar does not escalate further.

Please help us for our future and hope of our children.

May God bless you all donors and Myanmar Foundation

With love

Ferdi Home Bagan, Myanmar.
